INDEPENDENT AUDITOR'S REPORT

To the Board of Director of Ray Sigorta Anonim Şirketi

A) Audit of the Financial Statements

Opinion

We have audited the accompanying balance sheet of Ray Sigorta Anonim Şirketi ("the Company") as at 31 December 2017 and the related statements of income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2017, and its financial performance and its cash flows for the year ended in accordance with the accounting principles and standards in force as per the insurance legislation and that are not regulated by them for "Insurance Accounting and Financial Reporting Legislation" including Turkey Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with the accounting principles and standards in force as per the insurance legislation and Standards on Auditing which is a component of the Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA") ("Standards on Auditing issued by POA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Turkey and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
<p><i>Estimations and assumptions used in calculation of insurance technical reserves</i></p> <p>As of 31 December 2017, the Company's total technical reserves amounting to TL 351.084.338 and constitute 48 percent of total liabilities. There are outstanding claims provisions in the technical reserves amounting to TL 169.429.200 based on various actuarial assumptions and for the claims not settled. There are also incurred but not reported provisions ("IBNR") amounting to 73.769.764 TL in the provision for outstanding claims for possible future claims. The Management has used actuarial assumptions and estimations for calculating the outstanding claims reserve by using registered actuary. These actuarial assumptions are explained in detail at Note 2.26 and Note 17 and due to these actuarial assumptions based on judgment and estimations, this matter has been defined as one of the key audit matters.</p>	<p>- We have performed related auditing procedures related to actuarial assumptions together with the registered actuarial specialist as auditor, who is part of our audit team in detailed at Note 2.26 and 17. We actively used an independent actuarial specialist due to technical requirement and speciality of the assumptions that have made by actuary of the Company.</p> <p>We reviewed the Company's case claims files by sampling method and ensured for reconciliation between current claims information and Company's financial statements. We received confirmation letters from the Company's lawyers and / or lawyers who engaged with Company. We assessed the accuracy of the Company's data, the competence of the information infrastructure, the checkpoints in the critical processes and the controls on working principles. We audited the suitability of the IBNR analyzes made by the Company on the portfolio, future expectations and the sector in which the IBNR analyzes were conducted. We assessed whether these analyzes are sufficient in actuarial view and at the disclosures that part of the financial statements.</p>

Key Audit Matter (Continued)

<p>Key Audit Matter</p> <p><i>Discounts on Net Cash Flows from Outstanding Claims and Restatement of Prior Period Financial Statements Prepared on 31 December 2016</i></p> <p>As explained in Note 2.1.6, in accordance with the Communiqué No 2017/7 dated September 15, 2017 issued by the Undersecretariat of Treasury of the Treasury, "Circular 2016/22 on the Reduction of Net Cash Flows from Outstanding Claims", the Company discounted the net cash flows generated from outstanding claims provision as of 31 December 2017 and 31 December 2016 for all branches in accordance with the principles specified in the related communiqué.</p> <p>This matter has been defined as one of the key audit matters due to materially level of transaction and restatement requirement since it is an accounting policy change for period 31 December 2016 that presented comparatively with 31 December 2017.</p>	<p>How our audit addressed the key audit matter</p> <p>We recalculated the discount effect of the Company's calculation that performed for all branches as of 31 December 2017 and 31 December 2016. We reviewed the discounting adjustments prepared by the Company for the restatement purpose in relation to prior year financials as of 31 December 2016.</p> <p>We reviewed the adequacy and accuracy of the disclosures related to the restatement of the financial statements and the restatement of the Company's footnotes in the accompanying financial statements.</p>
<p>Key Audit Matter</p> <p><i>Valuation of property for own use</i></p> <p>The properties for own use of the Company are subject to fair value determination. These properties are valued by independent appraisal companies authorized by the Capital Markets Board and recorded with fair value price at the financial statements based on the appraisal report prepared on 17 November 2017.</p> <p>Due to including important estimation and assumptions at valuation methods used in the fair value judgment of the property for own use, the subject defined as a key audit matter.</p>	<p>How our audit addressed the key audit matter</p> <p>Our audit procedures include the use of valuation specialists for assessing the assumptions and methods used by independent appraiser companies regarding the fair value assumptions of the Company's property for own use.</p> <p>We also focused on the disclosures presented by the Company at the financial statements regarding most sensitive assumptions that the result of valuation increase.</p> <p>Disclosures on the Company's property for own use are detailed in Note 6.</p>

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting principles and standards, in force as per the insurance legislation, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Responsibilities of auditors in an audit are as follows:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the accounting principles and standards, in force as per the insurance legislation and standards on auditing issued by the CMB and Standards on Auditing issued by POA. Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the accounting principles and standards, in force as per the insurance legislation and the standards on auditing issued by the CMB and Standards on Auditing issued by POA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Other Legal and Regulatory Requirements

1) Pursuant to the fourth paragraph of Article 398 of Turkish Commercial Code ("TCC") no. 6102; Auditors' Report on System and Committee of Early Identification of Risks is presented to the Board of Directors of the Company on 1 March 2018.

2) Pursuant to the fourth paragraph of Article 402 of the TCC; no significant matter has come to our attention that causes us to believe that for the period 1 January - 31 December 2017, the Company's bookkeeping activities and financial statements are not in compliance with TCC and provisions of the Company's articles of association in relation to financial reporting

3) Pursuant to the fourth paragraph of Article 402 of the TCC; the Board of Directors provided us the necessary explanations and required documents in connection with the audit.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.2 Other accounting policies appropriate for the understanding of the financial statements

Accounting in hyperinflationary countries

Financial statements of the Turkish entities have been restated for the changes in the general purchasing power of the Turkish Lira based on “TAS 29 – *Financial Reporting in Hyperinflationary Economies*” as at 31 December 2004. TAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting date, and that corresponding figures for previous years be restated in the same terms.

With respect to the declaration of the Turkish Treasury with the article dated 4 April 2005 and numbered 19387, financial statements as of 31 December 2004 are adjusted for the opening balances of 2005 in accordance with the section with respect to inflation accounting of the Capital Markets Board (“CMB”) Communiqué No: 25 of Series XI, “Communiqué on Accounting Standards in Capital Market” published in the Official Gazette dated 15 January 2003 and numbered 25290. Inflation accounting is no longer applied starting from 1 January 2005, in accordance with the same declaration of the Turkish Treasury. Accordingly, as at 31 December 2016, non-monetary assets and liabilities and items included in shareholders’ equity including paid-in capital recognized or recorded before 31 December 2004 in order to reflect inflation adjustments. Non-monetary assets and liabilities and items included in shareholders’ equity including paid-in capital recognized or recorded after 1 January 2005 are measured at their nominal values

Other accounting policies

Information regarding other accounting policies is disclosed above in “Note 2.1.1 - *Information about the principles and the specific accounting policies used in the preparation of the financial statements*” and each under its own caption in the following sections of this report.

2.1.3 Valid and presentation currency

The accompanying financial statements are presented in TL, which is the Company’s functional currency and reporting.

2.1.4 Rounding scale of the amounts presented in the financial statements

Financial information presented in TL, has been rounded to the nearest TL values.

2.1.5 Basis of measurement used in the preparation of the financial statements

The accompanying financial statements are prepared on the historical cost basis as adjusted for the effects of inflation that lasted until 31 December 2004, except for the financial assets at fair value through profit or loss, available-for-sale financial assets, derivative financial instruments and associates which are measured at their fair values unless reliable measures are available.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.6 Accounting policies, changes in accounting estimates and errors

Explanations on accounting estimates demonstrated in Note 3 - *Significant accounting estimates and judgments*.

The explanation for the changes in the accounting policies in the current period is as follows:

It is stated that the Undersecretariat of Treasury can discount the net flows that the insurance companies will make out of the provision for outstanding claims calculated in accordance with the insurance legislation in accordance with the principles specified in the related communiqué in the “Circular on Reduction of Net Cash Flows from Outstanding Claims” dated June 10, 2016 numbered with 2016/22.

The data used in the cash flow forecast parameters are generated by subtracting the estimated accumulated amount of damage (deducting subrogation collections) from the estimated amount of the damage paid. Percentage cash flow forecast parameters are calculated by dividing the calculated cash flow forecasting parameter by period based on the total estimated payment amount of the related branch of the Company. The Company's total outstanding claims reserve is distributed over periods with the estimated cash flow forecast parameters calculated on a period-by-period basis. The amount of each period is discounted at the statutory rate.

In accordance with “Circular on the Amendment of the General Regulation numbered with 2016/22 on Reduction of Net Cash Flows from Outstanding Claims of the Undersecretariat of Treasury dated September, 15 2017 numbered with 2017/7, discount in General Liability and Land Vehicles Responsibility Branches has become mandatory and for other branches are optional.

The Company has discounted the outstanding claims provision for all branches as of December 31, 2017 in accordance with the circular numbered 2017/7. As of December 31, 2017, the net outstanding claims provisions of the Company are as follows before the discount and after the discount:

31 December 2017 Branch	Net Outstanding Claim Provision Before Discount	Discounted Amount	Net Outstanding Claim Provision Discounted
Land vehicles responsibility	160.104.979	26.343.806	133.761.173
General liability	12.668.123	2.617.977	10.050.146
Other	26.547.098	929.217	25.617.881
Total	199.320.200	29.891.000	169.429.200

As can be seen in the table above, as a result of this transaction, the outstanding claims reserve is discounted by TL 29.891.000 as of 31 December 2017 (31 December 2016: TL 21.983.280).

Ray Sigorta Anonim Şirketi

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.6 Accounting policies, changes in accounting estimates and errors (continued)

In accordance with Article 13 of the General Regulation numbered with 2016/22 dated June 10, 2016, the Company has applied the discount of the outstanding claims provisions as a change in accounting policy within the scope of "TAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors" standard and prepare the financial statements in this way. The Company has adjusted the effect of changes in accounting policies in the current period by restating from previous period's financial statements.

The effects on the financial statements of the amendments to accounting policies for discounting the outstanding claims provision as of 31 December 2015, 31 December 2016 and 31 December 2017 are presented in the following tables.

31 December 2015	Prior Period Reported	Effect of Change	Restated
Deferred Tax Assets	749.580	(749.580)	-
Reserve for Unexpired Risks - Net	8.891.803	6.045.672	2.846.131

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.2 Consolidation

The Company has not any associate or subsidiary to be consolidated as of the reporting period,so consolidated financial statements have not been prepared.

2.3 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, whose operating results are reviewed regularly by the Board of Directors (being chief operating decision maker) to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available. Since the main economic environment, where the Company operates, is Turkey, a geographical segment reporting has not been presented. A business segment reporting of the Company is presented in Note 5 in accordance with TFRS 8- *Operating Segments* standard.

2.4 Foreign currency transactions

Transactions are recorded in TL, which is the Company's functional currency. Transactions in foreign currencies are recorded at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at exchange rates ruling at the reporting date and foreign currency exchange differences are offset and all exchange differences are recognized in the statement of income.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.5 Tangible assets

Except for buildings in use, tangible assets of the Company are recorded at their historical costs that have been adjusted for the effects of inflation until the end of 31 December 2004. There have been no other inflationary adjustments for these tangible assets for the following years and therefore they have been recorded at their costs restated for the effects of inflation until 31 December 2004. Tangible assets that have been purchased after 1 January 2005 have been recorded at their costs after deducting any exchange rate differences and finance expenses.

The Company measures its properties for use through fair value. For the properties measured at fair value that subject to amortisation, the amortisation started to be calculated by taking into consideration the rest of lives of related properties as of the date of the fair value determined.

Revaluation surplus arising from fair value measurement in buildings is recorded in "Other Capital Reserves" under equity by taking into account the effects of deferred tax. Decreases after revaluation arising from fair value measurement in buildings is subtracted from related assets "Other Capital Reserves" under Shareholders' Equity by comparing on the basis of account. Decreases after revaluation of the assets with no balances in "Other Capital Reserves" under Shareholders' Equity is associated with profit / loss accounts.

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net carrying value and the proceeds from the disposal of related tangible assets and reflected to the statement of income of the related period.

Maintenance and repair costs incurred in the ordinary course of the business are recorded as expense.

There are no pledges, mortgages and other encumbrances on tangible fixed assets.

There are no changes in accounting estimates that have significant effect on the current period or that are expected to have significant effect on the following periods.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of tangible assets since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

Depreciation rates and estimated useful lives are as follows:

Tangible Assets	Estimated Useful Lives (years)	Depreciation Rates (%)
Buildings	50	2,0
Machinery and equipments	3 – 16	6,3 – 33,3
Furniture and fixtures	4 – 16	6,3 – 25,0
Vehicles	5	20,0
Other tangible assets (including leasehold improvements)	5 – 10	10,0 – 20,0
Leased tangible assets	4 – 10	10,0 – 25,0

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.6 Investment properties

Investment properties are held either to earn rentals and/or for capital appreciation or for both.

Investment properties are measured initially at cost including transaction costs.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of retirement or disposal.

The Company does not have investment properties as of the reporting period (31 December 2016: None).

2.7 Intangible Assets

The Company's intangible assets consist of computer softwares and rights.

Intangible assets are recorded at cost in compliance with "TAS 38 – Accounting for intangible assets". The cost of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs.

Amortization is charged on a straight-line basis over their estimated useful lives over the cost of the asset.

Intangible assets' useful lives are 3 and 5 years.

2.8 Financial assets

A financial asset is any asset that is cash, an equity instrument of another entity, a contractual right to receive cash or another financial asset from another entity; or to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

Financial assets are classified in two categories; as financial assets fair value through profit or loss and loans and receivables.

Financial assets at fair value through profit or loss are presented as financial assets held for trading in the accompanying financial statements and trading securities and derivatives are included in this category. Financial assets at fair value through profit or loss measured at their fair values and gain/loss arising due to changes in the fair values of related financial assets is recorded in profit / loss. Interest income earned on trading purpose financial assets and the difference between their fair values and acquisition costs are recorded as interest income in the statement of income. In case of disposal of such financial assets before their maturities, the gains/losses on such disposal are recorded under trading income/losses. Accounting policies of derivatives are detailed in note 2.10 – *Derivative financial instruments*.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables those are not interest earning are measured by discounting of future cash flows less impairment losses, and interest earning loans and receivables are measured at amortized cost less impairment losses.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.8 Financial assets (continued)

Securities are recognized and derecognized at the date of settlement.

Long-term securities are financial assets that give a power to govern the financial and operating policies to benefit from the Company's benefit. These financial assets are measured at their cost value after deducting the provision for impairment, if any.

A financial asset is derecognized when the control over the contractual rights that comprise that asset is lost. This occurs when the rights are realized, expire or are surrendered.

2.9 Impairment on assets

Impairment on financial asset

Financial assets or group of financial assets are reviewed at each reporting date to determine whether there is objective evidence of impairment. If any such indication exists, the Company estimates the amount of impairment. A financial asset is impaired if, and only if, there is objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely affected by an event(s) ("loss event(s)") incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

Loans and receivables are presented net of specific allowances for uncollectibility. Specific allowances are made against the carrying amounts of loans and receivables that are identified as being impaired based on regular reviews of outstanding balances to reduce these loans and receivable to their recoverable amounts.

The recoverable amount of an equity instrument is its fair value. The recoverable amount of debt instruments and purchased loans measured to fair value is calculated as the present value of the expected future cash flows discounted at the current market rate of interest.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in the statement of operations. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

Impairment on tangible and intangible assets

On each reporting date, the Company evaluates whether there is an indication of impairment of tangible and intangible assets. If there is an objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the "TAS 36 – *Impairment of Assets*" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

Rediscount and provision expenses of the period are detailed in *Note 47*.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.10 Derivative financial instruments

As of the reporting date, the Company does not have any derivative financial instruments. Derivative instruments are treated as held for trading financial assets in compliance with the standard TAS 39 – *Financial Instruments: Recognition and measurement*.

Derivative financial instruments are initially recognized at their fair value.

The receivables and liabilities arising from the derivative transactions are recognized under the off-balance sheet accounts through the contract amounts.

Derivative financial instruments are subsequently remeasured at fair value and positive fair value differences are presented either as “financial assets held for trading” and negative fair value differences are presented as “other financial liabilities” in the accompanying financial statements. All unrealized gains and losses on these instruments are included in the statement of income.

2.11 Offsetting of financial assets

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the Reporting Standards, or for gains and losses arising from a group of transactions resulting from the Company’s similar activities like trading transactions.

2.12 Cash and cash equivalents

Cash and cash equivalents, which is the basis for the preparation of the statement of cash flows includes cash on hand, cheques received, other cash and cash equivalents, demand deposits and time deposits at banks having an original maturity less than 3 months which are ready to be used by the Company or not blocked for any other purpose.

2 Summary of significant accounting policies (continued)

2.14 Insurance and investments contracts-classification

An insurance contract is a contract under which the Company accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. Insurance risk covers all risk except for financial risks. All premiums have been received within the coverage of insurance contracts recognized as revenue under the account caption "written premiums".

Investment contracts are those contracts which transfer financial risk with no significant insurance risk. Financial risk is the risk of a possible future change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, provided, that it is not specific to a party to the contract, in the case of a non-financial variable.

As of the reporting date, the Company does not have a contract which is classified as an investment contract.

2.15 Insurance contracts and investment contracts with discretionary participation feature

Discretionary participation feature ("DPF") within insurance contracts and investment contracts is the right to have following benefits in addition to the guaranteed benefits.

- (i) that are likely to comprise a significant portion of the total contractual benefits;
- (ii) whose amount or timing is contractually at the discretion of the Issuer; and
- (iii) that are contractually based on:
 - (1) the performance of a specified pool of contracts or a specified type of contract;
 - (2) realized and/or unrealized investments returns on a specified pool of assets held by the Issuer; or
 - (3) the profit or loss of the Company, Fund or other entity that issues the contract.

As at the reporting date, the Company does not have any insurance or investment contracts that contain a DPF.

2.16 Investment contracts without DPF

As of the reporting date, the Company does not have any insurance contracts and investment contracts without DPF.

2.17 Liabilities

Financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity. Financial liabilities of the Company are measured at their discounted values. A financial liability is derecognized when it is extinguished.

2 Summary of significant accounting policies (continued)

2.18 Income taxes

Corporate tax

Corporate income is subject to corporate tax at 20% in Turkey to be effective from January 1, 2006. However, according to the Article 91 of the Law numbered 7061 “Legislation on Amendment of Certain Tax Legislation and Other Certain Legislation” which was published on the Official Gazette numbered 30261 on 5 December 2017 and according to the provisional clause 10 added to the Corporate Tax Law numbered 5520; corporate tax rate for the taxation periods of 2018, 2019 and 2020 is amended to 22%, which would later be applied as 20% at the end of these periods. During these periods, Council of Ministers is entitled to decrease the corporate tax rate of 22% to 20%.

This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. The withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with Turkish Tax Legislation, tax losses can be carried forward to offset against future taxable income for up to five years. The Company has not deductible tax losses as of 31 December 2017 (Note 21) (31 December 2016: None).

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Deferred taxes

In accordance with TAS 12 – *Income taxes*, deferred tax assets and liabilities are recognized on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

Deferred tax assets and liabilities are reported as net in the financial statements if, and only if, the Company has a legally enforceable right to offset current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity.

In case where gains/losses resulting from the subsequent measurement of the assets are recognized in the statement of income, then the related current and/or deferred tax effects are also recognized in the statement of income. On the other hand, if such gains/losses are recognized as an item under equity, then the related current and/or deferred tax effects are also recognized directly in the equity.

2 Summary of significant accounting policies (continued)

2.18 Income taxes (continued)

Transfer pricing

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of “disguised profit distribution via transfer pricing”. The General Communiqué on disguised profit distribution via Transfer Pricing, dated 18 November 2007 sets details about implementation.

In accordance with the General Communiqué, if a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

2.19 Employee benefits

Employee termination benefits

In accordance with existing Turkish Labour Law, the Company is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Company and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The computation of the liability is based upon the retirement pay ceiling announced by the Government. The applicable ceiling amount as at 31 December 2017 is TL 4.732 (31 December 2016: TL 4.426).

In Accordance IAS 19 which published by Public Company Accounting Oversight Board (PCAOB) dated March 12, 2013 is about “Benefits Employee Accounting Standard” and defined by beginning from December 31, 2012 net defined benefit liability of the actuarial gains and losses arising on re-measurement should be recognized in other comprehensive income under shareholders' equity and this effect should be applied retrospectively. The Company started to account current actuarial gains and losses under equity (other profit reserves) due to the fact that prior period actuarial gains and losses have remained below the materiality.

The Company accounted for employee severance indemnities using actuarial method in compliance with the TAS 19 – *Employee Benefits*, The major actuarial assumptions used in the calculation of the total liability as at 31 December 2017 and 31 December 2016 are as follows:

	31 December 2017	31 December 2016
Discount rate	%4,72	%4,25
Expected retirement turnover rate	%94	%93

Expected rate of salary/limit increase above was determined according to the government's annual inflation forecasts.

Other benefits

The Company has provided for undiscounted short-term employee benefits earned during the period as per services rendered in compliance with *TAS 19* in the accompanying financial statements.

2 Summary of significant accounting policies (continued)

2.20 Provisions

A provision is made for an existing obligation resulting from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the reporting date and, if material, such expenses are discounted to their present values. If the amount is not reliably estimated and there is no probability of cash outflow from the Company to settle the liability, the related liability is considered as “contingent” and disclosed in the notes to the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, the Company discloses the contingent asset.

2.21 Revenue recognition

Written premiums and claims paid

Written premiums represent premiums on policies written during the period net of taxes, premiums of the cancelled policies which were produced in prior periods and premium ceded to reinsurance companies,. Premiums ceded to reinsurance companies are accounted as “written premiums, ceded” in the statement of income.

Claims are recognized as expense as they are paid. Outstanding claims provision is provided for both reported unpaid claims at period-end and incurred but not reported claims. Reinsurer’s shares of claims paid and outstanding claims provisions are off-set against these reserves.

2 Summary of significant accounting policies (continued)

2.21 Revenue recognition (continued)

Subrogation, salvage and quasi income

According to the Communiqué 2010/13 dated 20 September 2010; the Company may account for income accrual for subrogation receivables without any voucher after the completion of the claim payments made to the insure. If the amount cannot be collected from the counterparty insurance company, the Company provides provision for uncollected amounts due for six months. If the counter party is not an insurance Company, the provision is provided after four months. As at the reporting date, in accordance with the related Communiqué the Company provided TL 5.399.124 (31 December 2016: TL 4.354.882) subrogation receivables and recorded TL 5.418.769 (31 December 2016: TL 4.354.882) (Note 12) net subrogation and salvage receivables under receivables from main operations. The Company provided allowance for uncollected subrogation receivables amounting to TL 444.140 (31 December 2016: TL 765.641) (Note 12) in accordance with Communiqué

For the years ended 31 December 2017 and 2016, salvage and subrogation collected are as follows:

	31 December 2017	31 December 2016
Motor Vehicles	22.777.614	21.180.603
Third Party liability for motor vehicles (MTPL)	1.659.865	1.242.254
Transportation	526.670	557.666
Fire and natural disaster	318.610	272.657
General Losses	76.893	158.853
Accident	1.734	-
Breach of Trust	805	295
Health	365	44
General Responsibility	297	10.920
Financial Loss	33	-
Water Vehicles	-	74.386
Total	25.362.886	23.497.678

As at 31 December 2017 and 31 December 2016, accrued subrogation and salvage income per branches is as follows:

	31 December 2017	31 December 2016
Motor Vehicles	3.469.895	2.957.115
Third Party liability for motor vehicles (MTPL)	888.303	722.286
Fire and natural disaster	391.017	256.178
Transportation	340.463	343.946
General Losses	316.454	57.143
Water Vehicles	12.060	-
Breach of Trust	577	272
Financial Loss	-	3.836
Health	-	13.948
General Responsibility	-	158
Total	5.418.769	4.354.882

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.21 Revenue recognition (continued)

Commission income and expense

As further disclosed in Note 2.24 - *Reserve for unearned premiums*, commissions paid to the agencies related to the production of the insurance policies and the commissions received from the reinsurance firms related to the premiums ceded are recognized over the life of the contract by deferring commission income and expenses within the calculation of reserve for unearned premiums for the policies produced before 1 January 2008 and recognizing deferred commission income and deferred commission expense in the financial statements for the policies produced after 1 January 2008.

Interest income and expense

Interest income and expense are recognized using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset and liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Trading income/expense

Trading income/expense includes gains and losses arising from disposals of financial assets held for trading purpose and available-for-sale financial assets. Trading income and trading expenses are recognized as "Income from disposal of financial assets" and "Loss from disposal of financial assets" in the accompanying unconsolidated financial statements.

Dividends

Dividend income is recognized when the Company's right to receive payment is ascertained.

2.22 Leasing transactions

The maximum period of the lease contracts is 10 years. Tangible assets acquired by way of finance leases are recorded in tangible assets and the obligations under finance leases arising from the lease contracts are presented under "Finance Lease Payables" account in the financial statements. In the determination of the related asset and liability amounts, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs on leasing agreements are expanded in lease periods at a fixed interest rate.

If there is impairment in the value of the assets obtained through finance lease and in the expected future benefits, the leased assets are measured at net realizable value. Depreciation for assets obtained through financial lease is calculated in the same manner as tangible assets.

Payments made under operating leases are recognized in the statement of income on a straight-line basis over the term of the lease.

2.23 Dividend distribution

The principles that are stated in the declaration of profit sharing, titled II-19.1, which were published in the federal register in 23 Jan 2014 by the Capital Market Board should be executed according to the decrees that are stated in the core contract between the partners and the profit sharing policies that were announced by the companies to the public. The Company's "Dividend Policy" was approved at the Annual General Meeting held on March 31,2014.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.23 Dividend distribution (continued)

Additionally, as stated within the aforementioned decision of CMB, for entities required to prepare consolidated financial statements, it has been agreed upon to require the net distributed profit calculations to be performed on the net profit for the period as stated on the consolidated financial statements, so long that the distribution can be funded through statutory resources.

The Company did not perform dividend distribution in 2016 and 2017.

2.24 Reserve for unearned premiums

In accordance with the “Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves” (“Communiqué on Technical Reserves”) which was issued in 26606 numbered and 7 August 2007 dated Official Gazette and put into effect starting from 1 January 2008, the reserve for unearned premiums represents the proportions of the gross premiums written without deductions of commission or any other allowance, in a period that relate to the period of risk subsequent to the reporting date for all short-term insurance policies. For commodity transportation policies with indefinite expiration dates, 50% of the remaining portion of the premiums accrued in the last three months, less any commissions is also provided as unearned premium reserves.

Reserve for unearned premiums is calculated for all insurance contracts except for the contracts for which the mathematical reserve is provided. Reserve for unearned premiums is also calculated for the annual premiums of the annually renewed long term insurance contracts.

Since the Communiqué on Technical Reserves was effective from 1 January 2008, the Turkish Treasury issued 4 July 2007 dated and 2007/3 numbered “Communiqué to Assure the Compliance of the Technical Reserves of Insurance, Reinsurance and Pension Companies With the Insurance Law No,5684” (“Compliance Communiqué”) to regulate the technical provisions between the issuance date and enactment date of the Communiqué on Technical Reserves. In accordance with the Compliance Communiqué, it is stated that companies should consider earthquake premiums written after 14 June 2007 in the calculation of the reserve for unearned premiums while earthquake premiums were deducted in the calculation of the reserve for unearned premiums before. Accordingly, the Company has started to calculate reserve for unearned premiums for the earthquake premiums written after 14 June 2007, while the Company had not calculated reserve for unearned premiums for the earthquake premiums written before 14 June 2007.

According to the 2009/9 Numbered Communiqué Related to Application of Technical Reserves issued on 27 March 2009 reserve for unearned premiums is calculated by taking into account that all policies become active at 12:00 at noon and end at 12:00 at noon.

According to the Communiqué on Technical Reserves, for the calculation of unearned premium reserves of foreign currency indexed insurance agreements, foreign currency selling exchange rates announced by Turkish Central Bank will be considered, unless there is a specified exchange rate in the agreement.

As at the reporting date, the Company has provided reserve for unearned premiums amounting to TL 400.351.092 (31 December 2016: TL 327.808.930) and reinsurer share in reserve for unearned premiums amounting TL 221.696.030 (31 December 2016: TL 164.187.834). Furthermore, reserve for unearned premiums includes Social Security Institution (“SSI”) share amounting to TL 9.311.117 (31 December 2016:TL 9.565.611) as at 31 December 2017.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.25 Reserve for unexpired risks

In accordance with the Communiqué on Technical Reserves, while providing reserve for unearned premiums, in each accounting period, the companies should perform adequacy test covering the preceding 12 months due to the probability that future claims and compensations of the outstanding policies may be in excess of the reserve for unearned premiums already provided. In performing this test, it is required to multiply the reserve for unearned premiums, net with the expected claim/premium ratio. Expected claim/premium ratio is calculated by dividing incurred losses (provision for outstanding claims, net at the end of the period + claims paid, net – provision for outstanding claims, net at the beginning of the period) to earned premiums (written premiums, net + reserve for unearned premiums, net at the beginning of the period – reserve for unearned premiums, net at the end of the period). In the calculation of earned premiums; deferred commission expenses paid to the agencies and deferred commission income received from the reinsurance firms which were netted off from reserve for unearned premiums both at the beginning of the period and at the end of the period are not taken into consideration.

In accordance with Treasury Communiqué numbered 2012/15, unexpired risk reserve started to be calculated over main branches as of December 31, 2012. The test is performed on branch basis and in case where the expected claim/premium ratio is higher than 95%, reserve calculated by multiplying the exceeding portion of the expected claim/premium ratio with the reserve for unearned premiums of that specific branch is added to the reserves of that branch.

Accordingly, as at the reporting date, the Company has provided net reserve for unexpired risk amounting to TL 4.293.259 (31 December 2016: None) and unexpired risk amounting of reinsurance to TL 3.819.634 (31 December 2016: None) in the accompanying unconsolidated financial statements.

In accordance with sector announcements of Turkish Treasury numbered 2015/30 and 2016/1, as of 31 December 2016, opening provision for outstanding claims amount which is used in determined expected claim/premium ratio for calculating the reserve for unexpired risks has been restated in consistently with the current period.

According to the Communiqué numbered 2011/18, the Company excluded both the premiums transferred to SSI and claims related to treatment costs from calculation of reserve for unexpired risks in motor third party liability, compulsory transportation financial liability and compulsory personal accident for bus transportation branches.

As of 31 December 2017, the Company did not use the method stated in "Reserve for unexpired risks" Communiqué numbered 2016/37 and dated 11 November 2016.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2. Summary of significant accounting policies (continued)

2.26 Provision for outstanding claims

According to Article 7 of Provision for Outstanding Claims titled of the Communiqué Related to Technical Reserves of Insurance and Reinsurance Companies and the Technical Reserves Invested to Assets dated 7 August 2007 and numbered 26606 entered into force by publishing in the Official Gazette, the Company allocates the provision for outstanding claims for incurred and identified but the actual unpaid claims amounts in the prior accounting periods or current period or for the claims realized with its expected amounts but not be reported when the cost could not be calculated.

Claims incurred before the accounting periods but reported subsequent to those dates are considered as incurred but not reported (“IBNR”) claims.

In accordance with the Regulation on the amendment of the relevant Regulation published in the Official Gazette dated July 17, 2012 and numbered 28356, “Inquired but not reported compensation amount, principles of content and implementation shall be calculated by the actuarial chain ladder method determined by the Undersecretariat or by other calculation methods to be determined by the Undersecretariat.”

Claims incurred before the accounting periods but reported after these dates are accepted as the claims incurred but not reported. In accordance with the Communiqué Related to Provision for Outstanding Claims that entered into force in January 1, 2015 by publishing in December 5, 2014 and numbered 2014/16, IBNR account in non-life branches can be made calculation of Actuarial Chain Ladder Method (ACLM) with its six different methods as Standart Chain, Claim/Premium, Cape Code, Frequency/Volume, Munich Chain Method or BornhuetterFerguson.

The difference between the amount of accrued and outstanding claims provision determined using the actuarial chain ladder methods determined as IBNR, calculated negative IBNR results are reflected in the financial reports as 100% in the direction of Communiqué of the Undersecretariat of Treasury numbered with 2011/23 on “Explanations Regarding the Calculation of Inquired But Not Reported (IBNR)”.

The Company has applied the IBNR Test method for assessing the Company actuary for branches with insufficient number of files and has not made a major damage claim for these branches.

In accordance with the “Sectoral Announcement Regarding the Method Selection in ACLM Calculation” of the Undersecretariat of Treasury dated April 5, 2013, as of December 31, 2017 the method was changed in IBNR calculation of the Health branch and “Standard Chain” method has begun to be applied.

According to the method explained above, the amount calculated (included subrogation accrual) by the Company is amounting to TL 147.021.400 (31 December 2016: TL 61.491.556) and re-share is amounting TL 73.251.636 (31 December 2016: TL 31.406.918) in financial statements.

In accordance with “Communiqué Related to Information on Calculation of Incurred But Not Reported Claims Reserve” numbered 2011/23 and dated November 26, 2011, companies may decrease their outstanding claims reserve balances based on the winning ratio of the sub-branches calculated from the last five years claims. Winning ratio used for decrease in provision for outstanding claims could not exceed 25% (15% for the new sub-branches which do not have five year data). Based on the aforementioned regulation, the Company calculated winning ratio within 3%-25% from the last five year data set and TL 33.472.440 (31 December 2016: TL 31.510.239) as IBNR and TL 16.505.227 (31 December 2016: TL 14.500.614) as reinsurer’s share of IBNR is excluded from outstanding claims reserve balance.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

2 Summary of significant accounting policies (continued)

2.26 Provision for outstanding claims (continued)

The company has made a big damage item in the fire branch with the Box-Plot method and no major damage item has been made in other branches. In addition to this, due to the continuation of the emergency period in which our country is located, the gross amount of TL 4.500.000 and the net amount of TL 1.290.656 are added to the IBNR reserve and natural disasters, taking into account possible damages that the company will be liable to pay in the future, gross TL 7.403.571 and net TL 2.063.029 additional IBNR recognized.

According to Turkey Insurance, Reinsurance and Pension Companies Association ("MTI") dated September 6, 2017 numbered with 2017/4 on "Medical Compulsory Liability Insurance About the Sector Announcement Related to Bad Ideas" reported, it took the lead sharing premium and claims in the respective sub-branches General Liability branch not included in IBNR account. As a result, the gross loss amounting to TL 26.248 and net loss amounting to TL 4.160 has been added to the General Liability branch as the Indirect IBNR and the total gross TL 34.500.024 and net TL 5.468 IBNR amounts in General Liability are reflected in the financial statements.

As of December 31, 2017, the Company has made a gross workout of TL 90.786.755 for the Compulsory Traffic Branch in respect to material and bodily injury. However, in accordance with the "Regulation on the Amendment of the Regulation on Tariff Implementation Principles in the Compulsory Financial Liability Insurance for Road Vehicles Motor Vehicles" published in the Official Gazette on July 11, 2017, the gross amount of IBNR for damages to be transferred to the pool regarding the Risky Insured Pool is TL 4.733.217 identified. For the damages coming from the Risky Insured Pool, the additional reserve of TL 6.805.541 gross and net TL 4.771.824 was added to the IBNR of Total Traffic as Indirect IBNR. In order to reach Net Requirement Traffic, netting account was made by deducting the gross IBNR to be transferred to the pool. Also in the fourth quarter of 2017, as in the third quarter, 100% of the IBNR determined by gradual transition has been included in the calculation. Thus, the total Compulsory Traffic IBNR including gross accruals was reflected in the financial statements as gross TL 98.643.198 and net TL 66.020.895.

In accordance with the letter dated July 8, 2014 and dated August 8, 2014 and the letter dated August 5, 2014 and numbered 38681552-306.01.02.01 / 24808 on the grounds that the Company did not develop the damage in the Financial Loss Branch and did not reflect the real situation for the said branch, the file has not been rated IBNR and has not been taken into consideration in IBNR and Outstanding Competence calculations.

At the end of each period, an outstanding claim adequacy table is prepared by the Company in order to measure the adequacy of the outstanding claims provision for the branches where the new activity has been started and for which there is not sufficient data. During the preparation of the adequacy table and in the calculation of the outstanding claims reserve; outstanding claims that are accrued and accounted for, realized but not reported are taken into consideration. Proportion of outstanding claims to total outstanding claims reserve, including all expense amounts related to the file subject to outstanding claims provision in this framework, represents the outstanding claim adequacy ratio. If the outstanding claim adequacy ratio for these branches is more than 100%, the difference between this ratio and 100% rate is multiplied by the provision for outstanding claims reserve in the current period, and the difference in the adequacy ratio is found.

The adequacy ratio difference amount is added separately for each branch and the provision for outstanding outstanding claims to be set aside in the current year is calculated. In this framework, the Company has calculated the outstanding claims reserve adequacy ratio calculated for the branches that have started the new activity and not enough data as of December 31, 2017 to be TL 1.355 (31 December 2016: TL 9.994), which is calculated for the branches with the outstanding claim adequacy ratio above 100% in the accompanying financial statements.

2 Önemli muhasebe politikalarının özeti (devamı)

2.26 Muallak tazminat karşılığı (devamı)

In accordance with the General Assembly of the Undersecretariat of Treasury numbered with 2016/22 about the “Circular on the Reduction of Net Outflows from Outstanding Claims”, the Company has discounted the net flows of outstanding claims calculated and recorded according to insurance legislation in its all branches.

The discounting was made using the standard formulation in Table 57 - AZMM, as outlined in the General. The Company has used its own cash flow estimates for these branches because the standard formula given in the IBNR Test method in the IBNR account does not reflect the actual situation as there is not enough file name.

Net IBNR amount calculation is based on branches; current reinsurance shares to reflect the effect of current reinsurance agreements.

ACLM methods chosen by the Company on branch basis are given in the table below.

	31 December 2017	31 December 2016
Motor vehicles	Standart	Standart

2 Summary of significant accounting policies (continued)

2.26 Provision for outstanding claims (continued)

New Regulations on Treatment Costs Resulted from Traffic Accidents in Accordance with the Communiqué Numbered 2011/18 “Communiqué Related to the Accounting of Payments Related to Payment of Treatment Costs Resulted from Traffic Accidents and New Accounts in the Insurance Chart of Accounts”

58th and 59th articles and 1st and 2nd provisional articles of the Law numbered 6111 on “Restructuring of certain receivables and amendment to the law of social insurance and general health insurance and certain other laws and decree laws” published in the Official Gazette numbered 27857 and has come into effect on February 25, 2011.

According to the Article 59 of the aforementioned law, starting from 25 February 2011, premiums written under compulsory motor third party liability insurance contracts providing health assurance will be transferred to SSI by the rate up to 15% which will be later defined by Turkish Treasury. By this premium transfer, all liabilities related to body injuries resulted from traffic accidents will be compensated by SSI. According to the Provisional Article 1 and Article 59 of the Law, up to 20% of the transferred premium amount defined by the Turkish Treasury will also be transferred to SSI and treatment costs resulted from traffic accidents occurred before 25 February 2011 will also be compensated by SSI. As part of the aforementioned law, “Communiqué on Payment of Treatment Costs Resulted from Traffic Accidents” which was issued in Official Gazette numbered 28038 and dated 27 August 2011 has become effective. On 17 October 2011, the Turkish Treasury issued Communiqué numbered 2011/18 “Communiqué Related to the Accounting of Payments Related to Payment of Treatment Costs Resulted from Traffic Accidents and New Accounts in the Insurance Chart of Accounts”.

In accordance with the related Communiqué, the Company recognized outstanding claims reserve amounting to TL 18.185.338 (1 January – 31 December 2016: TL 17.721.559) as “Premium Transferred to SSI”(Note 2.14).

2.26 Provision for outstanding claims (continued)

New Regulations on Treatment Costs Resulted from Traffic Accidents in Accordance with the Communiqué Numbered 2011/18 “Communiqué Related to the Accounting of Payments Related to Payment of Treatment Costs Resulted from Traffic Accidents and New Accounts in the Insurance Chart of Accounts” (continued)

The movement of the total debt for treatment costs to pay SSI as follow;

	31 December 2017	31 December 2016
Opening Balance	4.926.641	3.095.409
Premiums Transferred to SSI ^{(*) (**)}	18.185.338	17.721.559
Balance Confirmation	-	2.127.398
Premium Paid to SSI	(17.445.833)	(18.017.725)
Closing Balance	5.666.146	4.926.641

(*) In statement of income, it is named Premiums Transferred to SSI.

(**) As described in Note 2.14, as part of the aforementioned law, “Communiqué on Payment of Treatment Costs Resulted from Traffic Accidents” which was issued in Official Gazette numbered 28038 and dated 27 August 2011 has become effective. On 17 October 2011, the Turkish Treasury issued Communiqué numbered 2011/17 “Communiqué Related to the Accounting of Payments Related to Payment of Treatment Costs Resulted from Traffic Accidents and New Accounts in the Insurance Chart of Accounts”. In accordance with the related Communiqué, as at 1 January-31 December 2017, the Company recognized outstanding claims reserve amounting to TL 18.185.338 (1 January – 31 December 2016: TL 17.721.559), as “Debt for treatment cost to pay SSI- Short Term” account, payments are decreased till the end of period.

(***) In the event of differences between 2011/17 and 2012/4 Communiqué No. of provisions within the framework of companies reported liabilities and the portion corresponding to the relevant period, the amount found as a result of calculation stated, regarding the difference in the balance sheet as "SSI debt on treatment expenses" account in the income statement other technical income expenses or income statement. In this respect, the Company as at January 1 – 31 December 2017 , taking into account the liability reported for the 2017 fiscal year has no any debt which will be adding to the account of "SSI debt on treatment costs" (1 January - 31 December 2016: None).

2.27 Equalization provision

In accordance with the Communiqué on Technical Reserves put into effect starting from 1 January 2008, the companies should provide equalization provision in credit insurance and earthquake branches to equalize the fluctuations in future possible claims and for catastrophic risks. Equalization provision, started to be provided in 2008, is calculated as 12% of net premiums written in credit insurance and earthquake branches. In the calculation of net premiums, fees paid for un-proportional reinsurance agreements are considered as premiums ceded to the reinsurance firms. The companies should provide equalization provision up to reaching 150% of the highest premium amount written in a year within the last five years.

In case where claims incurred, the amounts below exemption limits as stated in the contracts and the share of the reinsurance firms cannot be deducted from equalization provisions. Claims payments are deducted from first year’s equalization provisions by first in first out method. Equalization provisions are presented under “other technical reserves” in the accompanying financial statements. As at the reporting date, the Company provided equalization provision amounting to TL 11.837.567 in the accompanying unconsolidated financial statements (31 December 2016: TL 9.566.728).

Net losses (after reinsurance) resulted from earthquake occurred in several cities amounting to TL 154.265 (31 December 2016: TL 5.161) are decreased from prior periods’ equalization provision.

2 Summary of significant accounting policies (continued)

2.28 Related parties

Parties are considered related to the Company if;

(a) directly, or indirectly through one or more intermediaries, the party:

- controls, is controlled by, or is under common control with the Company (this includes parent, subsidiaries and fellow subsidiaries);
- has an interest in the Company that gives it significant influence over the Company; or
- has joint control over the Company;

(b) the party is an associate of the Company;

(c) the party is a joint venture in which the Company is a venturer;

(d) the party is member of the key management personnel of the Company and its parent;

(e) the party is a close member of the family of any individual referred to in (a) or (d);

(f) the party is an entity that is controlled or significantly influenced by, or for which significant voting power in such entity resides with directly or indirectly, any individual referred to in (d) or

(g) the party is a post-employment benefit plan for the benefit of employees of the Company, or of any entity that is a related party of the Company.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

A number of transactions are entered into with related parties in the normal course of business.

2.29 Earnings per share

Earnings per share are determined by dividing the net income by the weighted average number of shares outstanding during the year attributable to the shareholders of the Company. In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("Bonus Shares") to existing shareholders from retained earnings. For the purpose of earnings per share computations, such bonus shares issued are regarded as issued shares.

2.30 Events after the reporting date

Post-balance sheet events that provide additional information about the Company's position at the reporting dates (adjusting events) are reflected in the financial statements. Post-balance sheet events that are not adjusting events are disclosed in the notes when material.

2 Summary of significant accounting policies (continued)

2.31 Standards and interpretations issued but not yet effective

Standards issued but not yet effective and not early adopted

New standards, interpretations and amendments to existing standards are not effective at reporting date but earlier application is permitted; however the Company has not early adopted are as follows. The Company will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures, after the new standards and interpretations become in effect.

IFRS 9 Financial Instruments

IFRS 9, published in July 2014, replaces the existing guidance in IAS 39 “Financial Instruments: Recognition and Measurement”. It also carries forward the guidance on recognition, classification, measurement and derecognition of financial instruments from IAS 39 to IFRS 9. The last version of IFRS 9 includes a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements and also includes guidance issued in previous versions of IFRS 9. IFRS 9 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The Company has performed an initial assessment on these financial assets and liabilities and does not expect that there will be a significant impact on its financial statements resulting from the application of IFRS 9.

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by POA

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued to TFRS by the POA, thus they do not constitute part of TFRS. Such standards, interpretations and amendments that are issued by the IASB but not yet issued by the POA are referred to as IFRS or IAS. The Company will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

Amendments to IFRS 4: Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts

IFRS 4 has been amended by IASB to reduce the impact of the differing effective dates of the new insurance contracts standard and IFRS 9. These amendments to IFRS 4 provide two optional solutions for insurers to reduce concerns about implementations: i) when applying IFRS 9 by insurers to its financial assets, an insurer will be permitted to reclassify the difference between profit or loss and other comprehensive income and the amounts recognised in profit or loss under IFRS 9 and those that would have been reported under IAS 39; or ii) an optional temporary exemption from applying IFRS 9 for companies whose activities are predominantly connected with insurance before January 1, 2021. These companies will be permitted to continue to apply existing requirements for financial instruments in IAS 39. The [Group/Company] is assessing the potential impact on its [consolidated] financial statements resulting from the application of the amendments to IFRS 4.

2 Summary of significant accounting policies (continued)

2.31 Standards and interpretations issued but not yet effective

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by POA (continued)

IFRS 16 Leases

On 13 January 2016, IASB issued the new leasing standard which will replace IAS 17 Leases, IFRIC 4 Determining Whether an Arrangement Contains a Lease, SIC 15 Operating Leases – Incentives, and SIC 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease and consequently changes to IAS 40 Investment Properties. IFRS 16 eliminates the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, there is a single, on-balance sheet accounting model that is similar to current finance lease accounting. Lessor accounting remains similar to current practice. IFRS 16 is effective for annual periods beginning on or after 1 January 2019, with early adoption permitted provided that an entity also adopts IFRS 15 Revenue from Contracts with Customers. The Company is assessing the potential impact on its financial statements resulting from the application of IFRS 16.

IFRS 17 –Insurance Contracts

On 18 May 2017, IASB issued IFRS 17 Insurance Contracts. This first truly international standard for insurance contracts will help investors and others better understand insurers' risk exposure, profitability and financial position. IFRS 17 replaces IFRS 4, which was brought in as an interim Standard in 2004. IFRS 4 has given companies dispensation to carry on accounting for insurance contracts using national accounting standards, resulting in a multitude of different approaches. As a consequence, it is difficult for investors to compare and contrast the financial performance of otherwise similar companies. IFRS 17 solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner, benefiting both investors and insurance companies. Insurance obligations will be accounted for using current values – instead of historical cost. The information will be updated regularly, providing more useful information to users of financial statements. IFRS 17 has an effective date of 1 January 2021 but companies can apply it earlier. The Company is assessing the potential impact on its financial statements resulting from the application of IFRS 17.

3 Critical accounting estimates and judgments in applying accounting policies

The notes given in this section are provided to addition/supplement the commentary on the management of insurance risk note 4.1 – *Management of insurance risk* and note 4.2 – *Financial risk management*.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas at estimation uncertainty and critical judgment in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are described in the following notes:

- Note 4.1 – *Management of insurance risk*
- Note 4.2 – *Financial risk management*
- Note 10 – *Reinsurance assets/liabilities*
- Note 11 – *Financial assets*
- Note 12 – *Loans and receivables*
- Note 17 – *Insurance liabilities and reinsurance assets*
- Note 17 – *Deferred acquisition costs*
- Note 19 – *Trade and other payables, deferred income*
- Note 21 – *Deferred income taxes*
- Note 23 – *Provisions for other liabilities and charges*

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

4 Management of insurance and financial risk

4.1 Management of insurance risk

Insurance risk is defined as coverage for exposures that exhibit a possibility of financial loss due to applying inappropriate and insufficient insurance techniques. Main reasons of insurance risk exposure result from the risk selection and inaccurate calculation of insurance coverage, policy terms and fee or inaccurate calculation of coverage portion kept within the company and coverage portion transfers to policyholders and transfer conditions.

Objective of managing risks arising from insurance contracts and policies used to minimize such risks

Potential risks that may be exposed in transactions are managed based on the requirements set out in the Company's "Risk Management Policies" issued by the approval of the Board of Directors. The main objective of risk management policies is to determine the risk measurement, assessment, and control procedures and maintain consistency between the Company's asset quality and limitations allowed by the insurance standards together with the Company's risk tolerance of the accepted risk level assumed in return for a specific consideration. In this respect, instruments that are related to risk transfer, such as; insurance risk selection, risk quality follow-up by providing accurate and complete information, effective monitoring of level of claims by using risk portfolio claim frequency, treaties, facultative reinsurance contracts and coinsurance agreements, and risk management instruments, such as; risk limitations, are used in achieving the related objective.

Risk tolerance is determined by the Company's Board of Directors by considering the Company's long-term strategies, equity resources, potential returns and economical expectations, and it is presented by risk limitations. Authorization limitations during policy issuing include authorizations for risk acceptances granted based on geographical regions in relation to unacceptable special risks or pre-approved acceptable special risks, insurance coverage to agencies, district offices, technical offices, assistant general managers and top management in the policy issuance period and authorizations for claim payment granted to district offices, claim management administration, automobile claims administration and Claim Committee established by the managing director and assistant managing director in the claim payment period.

Whatsoever, risk acceptance is based on technical income expectations under the precautionary principle. In determining insurance coverage, policy terms and fee, these expectations are based accordingly

It is essential that all the authorized personnel in charge of executing policy issuance transactions, which is the initial phase of insurance process, should ensure to gather or provide all the accurate and complete information to issue policies in order to obtain evidence on the acceptable risks that the Company can tolerate from the related insurance transactions. On the other hand, decision to be made on risk acceptance will be possible by transferring the coverage to the reinsurers and/or coinsurers and considering the terms of the insurance policy.

In order to avoid destructive losses over company's financial structure, company transfers the exceeding portion of risks assumed over the Company's risk tolerance and equity resources through treaties, facultative reinsurance contracts and coinsurance agreements to reinsurance and coinsurance companies. Insurance coverage and policy terms of reinsurance are determined by assessing the nature of each insurance branch.

(Currency: Turkish Lira (TL))

4 Management of insurance and financial risk (continued)

4.1 Management of insurance risk (continued)

Objective of managing risks arising from insurance contracts and policies used to minimize such risk (continued)

Sensitivity to insurance risk

Insurance risks do not generally have significant unrecoverable losses in the course of ordinary transactions, except for risks associated with earthquake and other catastrophic risks. Therefore, there is a high sensitivity to earthquake and catastrophic risks.

The case of potential claims' arising from earthquake and other catastrophic risks exceeding the maximum limit of the excess of loss agreements, such risks are treated as the primary insurance risks and are managed based on the precautionary principle. Maximum limit of excess of loss agreements is determined based on the worst case scenario on the possibility of an earthquake that Istanbul might be exposed to in terms of its severity and any potential losses incurred in accordance with the generally accepted international earthquake models. The total amount of protection for catastrophic risks of the company is identified taking into the compensation amount for an earthquake will occur in a 1000 years.

4 Management of insurance and financial risk (continued)

4.2 Management of financial risk

Introduction and overview

This note presents information about the Company's exposure to each of the below risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Duties and responsibilities of the Risk Management and Internal Control Department include design and implementation of risk management system and identification and implementation of risk management policies. It is also responsible for ensuring that the Company implements all necessary risk management techniques. Activities of the Risk Management and Internal Control Department are managed directly by General Manager. The Board of Directors monitors the effectiveness of the risk management system through company's chairman of the supervisory board.

Risk management policies and guidelines are set by the Board of Directors and applied by the top management. These policies include organisation and scope of the risk management function, risk measurement and assessment methods, duties and responsibilities of the Board of Directors, top management and all of the employees, procedures followed in the case of limit extension and compulsory approval and confirmation processes for certain situations.

Credit Risk

Credit risk is most simply defined as the potential that a bank borrower or counterparty will fail to meet its obligations in accordance with agreed terms. The balance sheet items that the Company is exposed to credit risks are as follows:

- cash at banks
- other cash and cash equivalents
- available for sale financial assets (except equity-shares)
- Premium receivables from policyholders
- receivables from intermediaries (agencies)
- receivables from reinsurance companies related to commissions and claims paid
- reinsurance shares of insurance liability
- receivables from related parties
- other receivables

Reinsurance contracts are the most common method to manage insurance risk. This does not, however, discharge the Company's liability as the primary insurer. If a reinsurer fails to pay a claim for any reason, the Company remains liable for the payment to the policyholder. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength prior to finalization of the reinsurance contract.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet cash commitments associated with financial instruments.

Management of the liquidity risk

The Company considers the maturity match between asset and liabilities for the purpose of avoiding liquidity risk and ensure that it will always have sufficient liquidity to meet its liabilities when due.

Maturity distribution of monetary assets and liabilities:

4.2 Management of financial risk (continued)

Market risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and credit spreads will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Currency Risk

The Company is exposed to currency risk through insurance and reinsurance transactions in foreign currencies.

Foreign exchange gains and losses arising from foreign currency transactions are recorded at transaction dates. At the end of the periods, foreign currency assets and liabilities evaluated by the Central Bank of the Republic of Turkey's spot purchase rates and the differences arising from foreign currency rates are recorded as foreign exchange gain or loss in the statement of income.

The Company's exposure to foreign currency risk is as follows:

31 December 2017	US Dollar	Euro	Other Currencies	Total
Cash and cash equivalents	1.804.159	3.835.831	7.658	5.647.648

Market risk (continued)

Exposure to currency risk

Foreign currency rates used for the translation of foreign currency denominated assets and liabilities as at 31 December 2017 and 31 December 2016 are as follows:

	US Dollar	Euro
31 December 2017	3,7719	4,5155
31 December 2016	3,5192	3,7099

A 10 percent depreciation of the TL against the following currencies as at 31 December 2017 and 31 December 2016 would have increased or decreased equity and profit or loss (excluding tax effects) by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. In case of a 10 percent appreciation of the TL against the following currencies, the effect will be in opposite direction.

	31 December 2017		31 December 2016	
	Profit or loss	Equity (*)	Profit or loss	Equity (*)
US Dollar	1.947.626	1.947.626	2.524.874	2.524.874
Euro	2.662.051	2.662.051	2.350.213	2.350.213
Other	2.564	2.564	4.268	4.268
Total, net	4.612.241	4.612.241	4.879.355	4.879.355

(*) Equity effect also includes profit or loss effect of 10% depreciation of TL against related currencies.

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

4 Management of insurance and financial risk (continued)

4.2 Management of financial risk (continued)

Market risk (continued)

Exposure to interest rate risk

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

As at reporting date; the interest rate profile of the Company's interest earning financial assets and interest bearing financial liabilities are detailed as below:

	31 December 2017	31 December 2016
<i>Financial assets with fixed interest rates:</i>		
Cash at banks (Note 14)	327.426.086	276.710.380
Available for sale financial assets – Government bonds (Note 11)	34.617.218	18.028.819
<i>Financial assets with variable interest rates:</i>		
	None	None

Interest rate sensitivity of the financial instruments

Interest rate sensitivity of the statement of income is the effect of the assumed changes in interest rates on the fair values of financial assets at fair value through profit or loss and on the net interest income for the trading financial assets and financial liabilities held at 31 December 2017 and 2016. This analysis assumes that all other variables remain constant. Tax effect of changes in interest rate is not taken into consideration in the calculations.

31 December 2017	Profit or loss		Equity (*)	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
Financial assets held for trading	346.173	(346.173)	346.173	(346.173)
Total, net	346.173	(346.173)	346.173	(346.173)

(*) Equity effect also includes changes in interest rate on statement of income.

31 December 2016	Profit or loss		Equity (*)	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
Financial assets held for trading	180.289	(180.289)	180.289	(180.289)
Total, net	180.289	(180.289)	180.289	(180.289)

(*) Equity effect also includes changes in interest rate on statement of income.

4 Management of insurance and financial risk (continued)

4.2 Management of financial risk (continued)

Market risk (continued)

Fair value information

The estimated fair values of financial instruments have been determined using available market information, and where they exist, appropriate valuation methodologies.

The Company has classified its financial assets as financial assets held for trading. As at the reporting date, financial assets held for trading are measured at their fair values based on their quoted prices or fair value information obtained from brokers in the accompanying unconsolidated financial statements. Equity shares not traded in active markets are measured at cost less impairment losses if any.

The Company management estimates that the fair value of other financial assets and liabilities are not materially different than their carrying amounts.

Fair value sensitivity of the equities

Equity price risk is the risk that the fair values of equities decrease as a result of the changes in the levels of equity indices and the value of individual stocks.

The effect on income as a result of 10% change in the fair value of equity instruments held as held for trading financial assets which is traded at BIST due to a reasonably possible change in equity indices (with all other variables held constant) is as follows (excluding tax effect):

	31 December 2017		31 December 2016	
	Profit or loss	Equity (*)	Profit or loss	Equity (*)
Financial assets held for trading	(186.135)	(186.135)	(78.995)	(78.995)
Total, net	(186.135)	(186.135)	(78.995)	(78.995)

(*) Equity impact includes impact of change of conjectural interest rates on income statement.

Classification of fair value measurements

TFRS 7 – *Financial instruments: Disclosures* requires the classification of fair value measurements into a fair value hierarchy by reference to the observability and significance of the inputs used in measuring fair value of financial instruments measured at fair value to be disclosed. This classification basically relies on whether the relevant inputs are observable or not. Observable inputs refer to the use of market data obtained from independent sources, whereas unobservable inputs refer to the use of predictions and assumptions about the market made by the Company. This distinction brings about a fair value measurement classification generally as follows:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3: Fair value measurements using inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Classification requires the utilization of observable market data, if available.

The classification of fair value measurements of financial assets and liabilities measured at fair value is as follows:

	31 December 2017			
	Level 1	Level 2	Level 3	Total
<i>Financial assets:</i>				
Financial assets held for trading (Note 11)	36.478.564	-	-	36.478.564
Total financial assets	36.478.564	-	-	36.478.564

	31 December 2016

Ray Sigorta Anonim Şirketi

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

15 Equity

Paid in capital

The shareholder having direct or indirect control over the shares of the Vienna Insurance Group.

The Company does not increase its share capital in the period ended at 31 December 2017.

As at 31 December 2017, the issued share capital of the Company is TL 163.069.856 (31 December 2016: TL 163.069.856). The share capital of the Company consists of 16.306.985.600 (31 December 2016: 16.306.985.600 shares) issued shares with TL 0.01 nominal value each.

Other capital reserves

In accordance with “TAS 16 – Tangible Assets”, the Company accounts for property for operational use using the revaluation model. Increases in the carrying amounts arising on revaluation of properties, net of tax, are accounted for in “Other profit reserves” under shareholders’ equity. At each accounting period, the difference between depreciation based on the revalued carrying amount of the asset (charged to the statement of income) and the depreciation based on the asset’s original cost is transferred revaluation increases arising from the revaluation of property for operational use are not allowed to be used in capital increases.

In accordance with the 4 July 2007 dated and 2007/3 numbered Compliance Communiqué issued by the Turkish Treasury, it was stated that the companies would not further provide earthquake provision for the year 2007. However, it was also stated that earthquake provisions provided in previous periods (earthquake provision in the financial statements as at 31 December 2006) should be transferred to the reserve accounts under equity in accordance with the 5th Temporary Article of the Insurance Law. The companies had to transfer total amount of provisions, including earthquake provisions reserved as at 31 December 2006 and related gains obtained from investment of these amounts, to the account called as “549.01 – transferred earthquake provisions” which would be opened as at 1 September 2007 within Uniform Chart of Account and the reserves amount should not be subject to dividend distribution or should not be transferred to other accounts.

Other capital reserves distribution is presented below;

	31 December 2017	31 December 2016
Revaluation fund	41.311.787	22.742.252
Earthquake provision transferred to profit reserve	9.265.403	9.265.403
Actuarial losses, net	(2.815.842)	(2.577.035)
Other capital reserves at the end of the period	47.761.348	29.430.620

Legal reserves

The legal reserves consist of first and second legal reserves in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of the statutory profits at the rate of 5%, until the total reserve reaches a maximum of 20% of the entity’s share capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of 5% of the entity’s share capital. The first and second legal reserves are not available for distribution unless they exceed 50% of the share capital, but may be used to absorb losses in the event that the general reserve is exhausted.

Notes to the Financial Statements

As at 31 December 2017

(Currency: Turkish Lira (TL))

16 Other reserves and equity component of DPF

As at 31 December 2017 and 31 December 2016, change in fair values of available-for-sale financial assets which is presented as “valuation of financial assets” and earthquake provisions provided in the previous years presented under “other profit reserves” are explained in detail in Note 15 – *Equity* above. As at 31 December 2017 and 31 December 2016, the Company does not hold any insurance or investment contracts which contain a DPF.

17 Insurance contract and reinsurance assets

Estimation of the ultimate payment for the outstanding claims is one of the most important accounting assumptions of the Company. Estimation of the insurance contract liabilities contains several ambiguities by nature. The Company makes calculation of the related insurance technical provisions accordance with the Insurance Legislation and reflects them into financial statements as mentioned in Note 2 – *Summary of significant accounting policie*.

As at 31 December 2017 and 31 December 2016, details of the technical reserves of the Company are as follows:

Claim development tables

The basic assumption used in the estimation of provisions for outstanding claims is the Company's past experience on claim developments. Judgment is used to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process, etc, is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claim provisions are not known with certainty at the reporting date. Consequently, the ultimate liabilities will vary as a result of subsequent developments. Differences resulting from reassessment of the ultimate liabilities are recognized in subsequent financial statements.

Development of insurance liabilities enables to measure the performance of the Company in estimation of its ultimate claim losses. The amounts presented on the top of the below tables show the changes in estimations of the Company for the claims in subsequent years after claim years. The amounts presented on the below of the below tables give the reconciliation of total liabilities with provision for outstanding claims presented in the accompanying financial statements.
